

2020.8.21

Dear all members and alumni of Bio-Sensing Engineering Laboratory,
Former Agricultural Processing Laboratory
Former Agricultural Machinery Laboratory

Higashi Kenki, M1 student (Executive secretary of summer seminar)

Laboratory of Bio-Sensing Engineering
Graduate school of Agriculture, Kyoto university

Invitation to attend Summer Seminar 2020

On behalf of the Bio-Sensing Engineering lab, I am inviting you to join the Online Summer Seminar in August. Last year, we held the 50th anniversary event of our laboratory successfully. Again we thank you for many alumni and alumnae participation. For this year, very regretful, due to the Coronavirus (COVID-19) pandemic, we cannot actually get together at a same place. Instead, we are planning to hold an Online Summer Seminar on Zoom. Also, it may be easy for oversea members to join this seminar by online approach. The detailed plan of this year's Online Summer Seminar is attached below, please kindly find them.

It is very important for current students to get contact and communicate with graduated students and senior members, so that they would learn from diverse background and generations holding "Sempais".

Please kindly contact us, if you would be available to attend our event or if you have any questions. As well please inform us with ①your name, ②nationality, ③organization you belong to and ④E-mail address, before 1st August, in case that you can attend this online meeting. For the information of ③ your organization, will be used as reference for speech arrangement, this information providing is not obligatory. We greatly appreciate if you can spend your precious time with us for this year's summer seminar.

We have not known all the alumni and alumnae e-mail addresses. We will express our gratitude, if you tell the alumni and alumnae around you, who did not receive this invitation. Since Zoom meeting is very easy to have an access, please feel free to join, even partially participate. We are looking forward to seeing you!

Detail
