

2020.8.01

Dear all members and alumni of Bio-Sensing Engineering Laboratory,
Former Agricultural Processing Laboratory
Former Agricultural Machinery Laboratory

Ikebe Takato, M1 student (Executive secretary of summer seminar)

Laboratory of Bio-Sensing Engineering
Graduate school of Agriculture, Kyoto university

Invitation to Summer Seminar 2021

On behalf of the Bio-Sensing Engineering lab, I am inviting you to join the Online Summer Seminar in August. Considering the situation of COVID-19, summer seminar for last year was held online for the safety of the attendees. We were preparing for an offline seminar this year, but unfortunately, as we do not have a better outlook on the settlement of COVID-19 infections yet, we will be holding an online summer seminar again for the safety of the attendees. Also, it may be easy for overseas members to join this seminar by online approach. The details of this year's Online Summer Seminar are attached below, please kindly find them.

It is very important for us to contact and communicate with graduates and senior members so that they can learn from diverse background and generations holding "Sempais".

Please kindly contact us, if you are available for our event or if you have any questions. If you are participating in summer seminar this year, please send me a message with ①your name, ②graduation year, ③nationality, ④organization you belong to, and, ⑤E-mail address, before 15th August. ③ Your nationality and ④your organization, will be used as a reference for grouping and group movement of participants during the conversation, and the provision of these information is not obligatory. We would greatly appreciate it if you could spend your precious time with us for this year's summer seminar.

As we do not have e-mail addresses for all the alumni and alumnae, we highly appreciate if you could invite other alumni and alumnae who did not receive this invitation. Since Zoom meeting is very easy to access, please feel free to join. A partial participation is also welcomed. We are looking forward to seeing you!
