

Momin-san's arrival

Mr. Momin, Md Abdul, an assistant professor, Bangladesh Agriculture University has come to enter our university on Oct.8. He is a Japanese government-financed foreign student and learn at our laboratory as research student and as a graduate student (Ph.D) for several years. He is going to research on Machine vision for bioproduction especially agricultural products. Since he already has an experience to stay at our laboratory last year, he would soon start studying with us.
